

PROJECT PRESENTATION

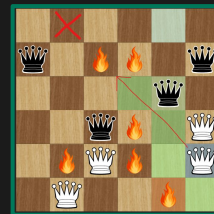

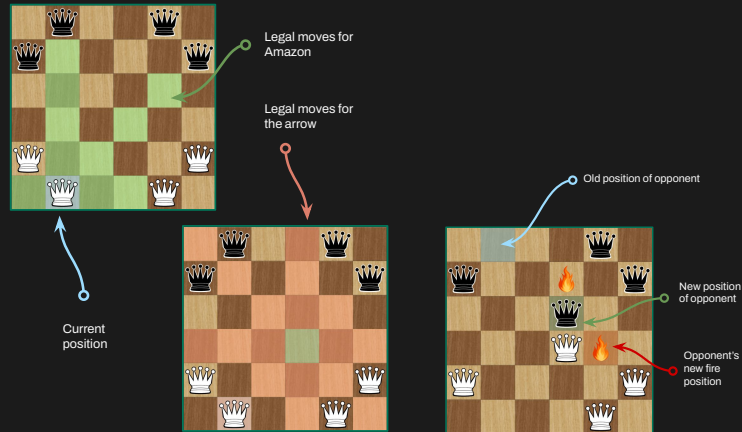

GAME OF THE AMAZONS

Available on:
<https://github.com/ehadziabdic/GameOfTheAmazons>

Game of The Amazons

- Each player have **two moves** to play(queen, arrow)
- Once an arrow lands on tile, that tile is **permanently blocked** for the rest of the game.
- **No one** can move or shoot through blocked tile.
- The goal is to be the **last player able to make a move**. You win when your opponent is **completely trapped** and has no legal moves left.

Available Board Styles
